## **Ramin Massoumi, P.E., to Lead DKS Associates Southern California Operation**

DKS Associates, a national traffic engineering and transportation planning firm, is pleased to announce that Ramin Massoumi, P.E., has joined the firm as its Southern California Office Manager and Principal, to direct their growing Southern California operation.

“With over 15 years of experience in analysis, planning and design in Intelligent Transportation Systems and traffic engineering, both as a project manager and engineer, Ramin brings a proven track record to DKS and is well recognized in our industry,” said Randy McCourt, President of DKS Associates.

Prior to joining DKS, Mr. Massoumi was with Iteris’ transportation systems division. His projects and responsibilities covered a wide range of activities from advanced traffic management systems and integrating ITS elements, to transit signal priority systems, signal timing, bus rapid transit systems and traffic operations center design.

“It is this unique combination of advanced technology experience and leadership and in-depth understanding of transportation challenges that makes Ramin such a complement to our firm and a great leader for our Southern California practice. He is a perfect match to meet our commitment to high quality client service. Ramin’s expertise will make us an even more effective partner in solving congestion and emission challenges of our nation’s increasingly complex transportation systems,” said Mr. McCourt.

“DKS is a leader in offering innovative transportation solutions to its clients and is implementing projects that many are only studying,” said Ramin Massoumi. “I am very excited about participating in the company’s vision as a leading technology solutions provider in the transportation industry and look forward to working closely with its renowned staff and clients.”

Mr. Massoumi holds a BS in Civil Engineering from the University of California, Irvine, an MS in Engineering from the University of California, Berkeley, and an MBA from the University of Southern California.

DKS Associates is a state of the art, traffic engineering and transportation planning firm, headquartered in Oakland, CA, with offices in Irvine, CA, Sacramento, CA, Portland, OR, Salem, OR, Seattle, WA, Dallas, TX, and Tampa, FL. For over 30 years, DKS Associates has been dedicated to providing high quality, innovative and economical transportation solutions for all modes of ground transportation.
